

1 Going to canteen later than what was safe

Did you ever go to the canteen at an arrival time later than what was safe according to your previous answer? Why or why not?

1.1 Yes

1. Code for participant: awyxy9kj cutoff2 answer: Yep.
2. Code for participant: ia2nt1g7 cutoff2 answer: Yes, because i knew my partner would go to the canteen at 8:50
3. Code for participant: dy01d3ti cutoff2 answer: Ja because sometimes u need the morning hit drink
4. Code for participant: 95r4cajr cutoff2 answer: Yes, as there is a chance that the colleague is already in the canteen
5. Code for participant: bykshrd2 cutoff2 answer: Yes. That is why I consider it to be my fault. But that is mainly a idiosyncratic reason: as far as the experiment is concerned, I cannot know that it is my fault -- you get the reasoning I portray, I don't need to do an analysis.
6. Code for participant: rqot027h cutoff2 answer: Yes, later because it took time to understand how the uncertainty works
7. Code for participant: qjr6j2nr cutoff2 answer: I went to the canteen when arriving at 8:50, because the chance of him arriving 10 minutes after me at 9:00 would be 50% and with me arriving before 9:00, the chance of us both arriving before 9:00 would be 67%, make going to the canteen the better the choice.
8. Code for participant: iie9gnub cutoff2 answer: Yes, going for the best odds
9. Code for participant: tzahpbo1 cutoff2 answer: Yes because we love coffee
10. Code for participant: pg5q8er0 cutoff2 answer: Yes, because there was still overwhelming probability that my friend went there aswell
11. Code for participant: 0d4kjemb cutoff2 answer: Yes did at 8:30, but should have only done it untill 8:20
12. Code for participant: vl6vptcz cutoff2 answer: Yes, arrival at 8:50 there can be 50:50 chance of my colleague being in the canteen or not arrived yet
13. Code for participant: b53k1epx cutoff2 answer: Yes
14. Code for participant: jwzifpcw cutoff2 answer: Yes, cause it seemed that my partner always went to the canteen with times up to 8:40. So i could nearly guarantee that we would go to the canteen if i had 8:30

15. Code for participant: bufvlp2i cutoff2 answer: Yes
16. Code for participant: vb2fenof cutoff2 answer: Sometimes I went at 8.50, in hopes that my colleague went to the canteen at 8.40.
17. Code for participant: 5yxo9new cutoff2 answer: Yea, there were multiple safe times.
18. Code for participant: mpu1zlwya cutoff2 answer: Once, and being uncertain, just try both possibilities
19. Code for participant: dcaw976a cutoff2 answer: Yes, because it seemed more rare to meet at 9 or later
20. Code for participant: d9gjkz3u cutoff2 answer: Yes, I like to risk it to see my college
21. Code for participant: s78dqnv cutoff2 answer: yes, im trying to get my colleague's strategy
22. Code for participant: d80v1d76 cutoff2 answer: Yes I went at 9:00 AM. I could see from my colleagues behaviour that he would go to the canteen, even if he arrived at 8:50AM and I arrived at 9:00 AM
23. Code for participant: m34i6dkf cutoff2 answer: I did in the first several times. I started to think with the other players situation afterwards
24. Code for participant: 6om6iwep cutoff2 answer: I did go later, because I trusted my colleague to be there. But without actual plan, trust was all I had.
25. Code for participant: z1plx5ri cutoff2 answer: Yes to possibly save more money.
26. Code for participant: jghl3ft6 cutoff2 answer: Yes,

1.2 No

1. Code for participant: r6ol7nz6 cutoff2 answer: Did not
2. Code for participant: b6erzgw2 cutoff2 answer: No
3. Code for participant: 3bvejf44 cutoff2 answer: I don't think so, and if I did, it was not my intent to do it.
4. Code for participant: 2910zpm1 cutoff2 answer: No
5. Code for participant: 354c0pma cutoff2 answer: No. I assumed consequences of being late at the office.
6. Code for participant: y2guuz54 cutoff2 answer: No

7. Code for participant: socxm37u cutoff2 answer: No
8. Code for participant: g4t3i56c cutoff2 answer: No
9. Code for participant: 7uvkoyyl cutoff2 answer: No, there is no reason to go later than 8:50, and at 8:50 it's just a matter of getting lucky (1/2 chance that the partner arrived before me)
10. Code for participant: euo571of cutoff2 answer: No
11. Code for participant: fihx7944 cutoff2 answer: No

1.3 Misc.

1. Code for participant: fex2yomp cutoff2 answer: Q
2. Code for participant: b31iji7v cutoff2 answer: :)
3. Code for participant: yd0llx75 cutoff2 answer: I didnt understand
4. Code for participant: 8tst1s28 cutoff2 answer: Misscliked
