

1 Changing strategy question DTU1

Did you ever choose differently after seeing the same arrival time again at a later point in the game? Why or why not?

1.1 Yes

1. Code for participant: eyjr8956 Changing strat answer: Yes, at 8:50 because it could go either way
2. Code for participant: hil578bg Changing strat answer: Yes. Followed my partners tactic of going to the canteen at 8:50. He then changed tactics midway which resulted in a quick end before I could adjust
3. Code for participant: q0ragkjk Changing strat answer: Yes, earlier answers by the other player changed my mind
4. Code for participant: qx6yytx4 Changing strat answer: Yes, I tried to figure out a strategy together with my partner
5. Code for participant: luykbvrv Changing strat answer: Yes. Both my buddy and I learned more and more about the game.
6. Code for participant: 4vnbdkgv Changing strat answer: Yes, I at one point was only somewhat certain when I should have been very
7. Code for participant: it43ekje Changing strat answer: Yes, I adapted to my oworkes answers
8. Code for participant: ovpi7o74 Changing strat answer: Yes. I started assuming that the bus would arrive at similar times on same weekdays.
9. Code for participant: 4h5bhqj6 Changing strat answer: The first time two similair answers came
10. Code for participant: 31ff8gvx Changing strat answer: Yes, after rereading the payoffs I understood.
11. Code for participant: arzg04dp Changing strat answer: Yes. I tried to adjust for my colleagues irrational behavior.
12. Code for participant: eu1lft65 Changing strat answer: yes because I assumed the other player has learned from past mistakes of arriving late
13. Code for participant: x3xi6vwr Changing strat answer: Yes, I didn't know at first whether the other player would go to the canteen at 8:40/8:50 or not so I didn't know if me arriving at 8:40 and going to the canteen would be safe. This knowledge was updated later in the game and I started going to the canteen at 8:40 with much certainty

14. Code for participant: pkriwkms Changing strat answer: Yes, I did, because I saw a pattern in how the opponent played
15. Code for participant: nasxyu56 Changing strat answer: Yes, for 8:30 I changed my certainty from fairly certain to very uncertain.
16. Code for participant: nqj339em Changing strat answer: Yes guessing with high uncertainty
17. Code for participant: fzi7n2cn Changing strat answer: Yes, as mentioned earlier.
18. Code for participant: uwks3ti Changing strat answer: Yes, because in the beginning he seemed to be going to the canteen at 8.50, so I tried to change my behaviour but then he changed his to mine, so I changed back as well.
19. Code for participant: 4yr77tx5 Changing strat answer: Yes, I chose to be more risky near the end of the game
20. Code for participant: fkb63rpz Changing strat answer: Yes. Again because I saw what my friend had answers the same multiple times
21. Code for participant: zyqoeys0 Changing strat answer: Probably. I'm not sure
22. Code for participant: mcnnxew Changing strat answer: Yes because after a few rounds I realized it is never safe to go canteen.
23. Code for participant: q1gi5k8m Changing strat answer: Yes, I learned what my partner would choose
24. Code for participant: ymmxmz1w Changing strat answer: Yes. I mistakenly tried to fool the game instead of thinking about each round independently. After doing it once I did not do it again.
25. Code for participant: eex9f34c Changing strat answer: Yes. We started learning what each other would choose
26. Code for participant: a6280itn Changing strat answer: Yes. It depended on What happened last time and on What my partner chose
27. Code for participant: wzhp90 Changing strat answer: Yes I changed from random at 8.50 to always pick canteen.
28. Code for participant: degv17zm Changing strat answer: Yes, I adjusted my play according to my co-player behaviour
29. Code for participant: v8ndw0x0 Changing strat answer: Yes, because my partner went to the office early a lot

30. Code for participant: ury717cx Changing strat answer: Yes
31. Code for participant: vc1ljavg Changing strat answer: yes my partner might act irrationally
32. Code for participant: bvrck71g Changing strat answer: yes, because I tried to adapt to the other persons answers, but sadly they did too.
33. Code for participant: k7w2uxa9 Changing strat answer: Yes. I started going to the Office more but Winther more uncertainty
34. Code for participant: qjr2w7tc Changing strat answer: I began to think about my colleagues choices after the first few rounds
35. Code for participant: 6yjpscl6 Changing strat answer: Yes, same reason as stated in previous question
36. Code for participant: f308g8k0 Changing strat answer: I chose differently earlier in the game but not later.
37. Code for participant: fpbnodjr Changing strat answer: Yes, although I am aware that statistically changing my answer doesn't make much sense I felt the need to do it anyways.
38. Code for participant: xirgy2as Changing strat answer: Yes, other people were thinking differently
39. Code for participant: 1rwicug6 Changing strat answer: Yes. Because the colleague only can have 2 different arrival times. The second time I expected it to be the other one (9am). However, it was stupid and I wouldn't do it again
40. Code for participant: 8yh3xx1b Changing strat answer: yes
41. Code for participant: sf4kl2zo Changing strat answer: Yes
42. Code for participant: lzejws5v Changing strat answer: Yeah because of how the other people choose
43. Code for participant: cr99q5qc Changing strat answer: Yes with 8:40
44. Code for participant: 0iusd3w7 Changing strat answer: Yes, when the money was low and you couldn't afford another loss of \$9+
45. Code for participant: tgsev17z Changing strat answer: I think I went to the canteen at 8:40 early on with fairly high certainty, but stopped doing that at some point.

1.2 No

1. Code for participant: 9uuut467 Changing strat answer: No, it was starting to be a rule
2. Code for participant: d5y5e89t Changing strat answer: No. Doesn't change the optimal strategy
3. Code for participant: kzz2ozls Changing strat answer: I did not.
4. Code for participant: gt6pemo0 Changing strat answer: No, I kept the same strategy
5. Code for participant: mcy6m2yg Changing strat answer: Yes because the other person often picked canteen in the beginning and not so much in the end
6. Code for participant: mj8r5vux Changing strat answer: Stick to the same strategy from the start.
7. Code for participant: 8kszs2jr Changing strat answer: Not sure
8. Code for participant: 7ms9gjyn Changing strat answer: Nope, I was thinking from 0 every time.
9. Code for participant: 1jxe8x0j Changing strat answer: No
10. Code for participant: gm01kvol Changing strat answer: I do not think so
11. Code for participant: gsvqidzt Changing strat answer: No
12. Code for participant: uvof5pmo Changing strat answer: No. I always go for coffee so my team mate doesn't get confused.
13. Code for participant: 3nyzsmpe Changing strat answer: I did not. Did it to not chance scheme.
14. Code for participant: 64fm81ni Changing strat answer: No because I still don't know the other persons time of arrival
15. Code for participant: 62drd1wd Changing strat answer: No.
16. Code for participant: w0v03hi4 Changing strat answer: No. I chose the same answer. I was a bit skeptical at first, but then I knew this is a good strategy.
17. Code for participant: reoi4tcq Changing strat answer: No.
18. Code for participant: ul32r8je Changing strat answer: I dont have time to answer
19. Code for participant: getiy58s Changing strat answer: No, hoped the other would adjust, so tried to be predictable

20. Code for participant: pqam12mx Changing strat answer: No
21. Code for participant: oxpd0w50 Changing strat answer: No
22. Code for participant: q0ehudqy Changing strat answer: No I tried to memoirs my opponent move
23. Code for participant: p5uvm2k4 Changing strat answer: No, consistency is key
24. Code for participant: fd0h0ps5 Changing strat answer: I tried to be consistent but may not have remembered all previous answers
25. Code for participant: 616gaqw2 Changing strat answer: No, I didn't change it, because it could change this time around. So I always chose the same answer
26. Code for participant: f6nirzuw Changing strat answer: No, there was no reason to change the strategy
27. Code for participant: m9ilrfce Changing strat answer: No
28. Code for participant: 86wga0kd Changing strat answer: No I tried not to change
29. Code for participant: rakdg3dg Changing strat answer: I clicked the wrong option by mistake. Otherwise i just adjustet the certainty of the guess

1.3 Changed certainty

1.4 Miscellaneous

1. Code for participant: qligwzt1 Changing strat answer: Try to be consistent
2. Code for participant: w1doycxj Changing strat answer: I realized too late, that he probably just always went to the office, no matter the time.
3. Code for participant: 0l0vhs3w Changing strat answer: What ?
4. Code for participant: filxkq9g Changing strat answer: dont know
